LIST OF EQUIPMENT, FURNITURE AND FIXTURES FOR MEDICAL AND WELLNESS SERVICES BUILDING

ITEM DESCRIPTION	QTY	UNIT COST	TOTAL COST	PROCUREMENT SCHEDULE	JUSTIFICATION
I. CLINICAL / CONSULTATION AREA					
ECG Machine (12-lead, digital)	2	₱ 150,000	₱ 300,000	Bidding: Q1 2027 Delivery: Q2 2027	Standard cardiac diagnostic tool required for pre-employment, annual physical examination, and clinical consultations. Two units accommodate simultaneous use across consultation rooms without workflow interruption.
Medical Refrigerator (pharmaceutical grade)	2	₱ 60,000	₱ 120,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for safe cold storage of temperature-sensitive vaccines, medicines, and biologicals. Maintains DOH-prescribed cold chain standards, dedicated and separate from general-use units.
Multi-parameter Patient Monitor (5-lead ECG, SpO2, NIBP, Temp)	4	₱ 300,000	₱ 1,200,000	Bidding: Q1 2027 Delivery: Q2 2027	Needed for continuous vital signs monitoring of patients in observation and treatment rooms. Provides simultaneous multi-parameter display essential for clinical assessment and emergency response.
Hospital Bed (electric, 3-function, with side rails)	6	₱ 200,000	₱ 1,200,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for patient observation, treatment, and recovery within the facility. Electric 3-function beds allow safe repositioning without manual lifting, reducing injury risk to nursing staff and patients.
Infusion Pump (volumetric, IV-line compatible)	6	₱ 80,000	₱ 480,000	Bidding: Q1 2027 Delivery: Q2 2027	Ensures precise, controlled intravenous fluid and medication delivery to patients. Reduces manual dosing errors and is required equipment for any clinical observation area with IV administration capability.
Syringe Pump (multi-channel)	4	₱ 80,000	₱ 320,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for the precise administration of concentrated medications and drips in small volumes. Complements volumetric infusion pumps for critical drug infusion protocols.
Suction Machine (portable, electric)	3	₱ 80,000	₱ 240,000	Bidding: Q1 2027 Delivery: Q2 2027	Essential emergency and clinical equipment for airway suctioning and wound drainage. Portable configuration allows deployment across multiple clinical areas and emergency response scenarios.
Oxygen Concentrator (5L/min, continuous flow)	4	₱ 100,000	₱ 400,000	Bidding: Q1 2027 Delivery: Q2 2027	Provides a continuous, cost-effective supplemental oxygen supply to patients without reliance on pressurized cylinders. Required in all clinical observation and treatment rooms as an alternative oxygen source.
Nebulizer (hospital-grade, compressor type)	4	₱ 60,000	₱ 240,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for the administration of aerosolized medications for respiratory conditions. Hospital-grade compressor nebulizers are more durable and deliver consistent particle size compared to consumer-grade units.
Holter Monitor (24/48-hour ambulatory ECG)	2	₱ 300,000	₱ 600,000	Bidding: Q2 2027 Delivery: Q2 2027	Required for continuous ambulatory cardiac monitoring over 24-48 hours to detect intermittent arrhythmias not captured during resting ECG. Essential for comprehensive cardiac evaluation in a medical facility.
Audiometer (diagnostic, calibrated)	1	₱ 300,000	₱ 300,000	Bidding: Q2 2027 Delivery: Q3 2027	Needed for periodic hearing assessment as part of annual physical examinations and occupational health monitoring, particularly for employees in high-noise work environments as required under DOLE occupational safety standards.
Video Colposcope (digital, with monitor)	1	₱ 600,000	₱ 600,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for gynecological examination and cervical cancer screening, supporting preventive women's health services. Digital video output allows documentation and teleconsultation with specialists.

Medical Workstation on Wheels (WOW) — with computer	6	₱ 150,000	₱ 900,000	Bidding: Q2 2027 Delivery: Q3 2027	Enables point-of-care electronic health record documentation and bedside clinical decision support. Mobile configuration allows a single unit to serve multiple rooms, reducing the number of fixed desktop workstations needed.
SECTION SUBTOTAL			₱ 6,900,000		
II. DIAGNOSTIC IMAGING AREA					
Digital Radiography (DR) System — room-type with image workstation	1	₱ 5,000,000	₱ 5,000,000	Bidding: Q1 2027 Delivery: Q2 2027	The primary radiographic diagnostic equipment for the facility. A room-type DR system with integrated image workstation replaces film-based X-ray, reduces radiation exposure, provides immediate digital image review, and supports teleradiology for specialist consultation.
Ultrasound Machine (color doppler, cart-based, with 3 transducers)	2	₱ 2,000,000	₱ 4,000,000	Bidding: Q1 2027 Delivery: Q2 2027	Core diagnostic imaging equipment for abdominal, obstetric, musculoskeletal, and cardiac scanning. Two units ensure continuous availability for outpatient and emergency consultations. Color doppler capability enables vascular and cardiac flow assessment.
Portable Point-of-Care Ultrasound (handheld/tablet-based)	1	₱ 1,500,000	₱ 1,500,000	Bidding: Q2 2027 Delivery: Q2 2027	Required for immediate bedside imaging in emergency and critical care scenarios where cart-based ultrasound cannot be quickly deployed. Point-of-care ultrasound reduces time to diagnosis in acute presentations.
Mammography Unit (full-field digital, with biopsy capability)	1	₱ 3,000,000	₱ 3,000,000	Bidding: Q1 2027 Delivery: Q3 2027	Required for breast cancer screening as part of preventive women's health services. Early detection through regular mammography screening significantly reduces breast cancer mortality rates. Biopsy capability enables guided tissue sampling without referral outside the facility.
Bone Densitometer — DEXA Scan (axial)	1	₱ 3,500,000	₱ 3,500,000	Bidding: Q1 2027 Delivery: Q3 2027	Essential for osteoporosis screening and bone mineral density assessment, particularly for menopausal women and aging employees. DEXA is the gold standard for BMD measurement and supports the facility's preventive and wellness programs.
Mobile Digital X-Ray System (portable DR unit, battery-operated)	1	₱ 2,000,000	₱ 2,000,000	Bidding: Q1 2027 Delivery: Q3 2027	Provides portable radiographic capability for bedside imaging of patients who cannot be transported to the fixed DR room. Essential for emergency and critical-care use, and for imaging in physical therapy and rehabilitation areas without disrupting clinical workflows.
SECTION SUBTOTAL			₱ 19,000,000		
III. DENTAL AREA					
Dental Chair (complete unit — light, spittoon, bracket table, A/W syringe)	2	₱ 350,000	₱ 700,000	Bidding: Q1 2027 Delivery: Q2 2027	The primary equipment for all dental procedures. Two complete units accommodate simultaneous dental services and reduce patient waiting time. Complete unit specification ensures all necessary accessories are integrated and standardized.
Dental X-Ray Machine (digital intraoral)	1	₱ 250,000	₱ 250,000	Bidding: Q1 2027 Delivery: Q2 2027	Necessary for intraoral radiographic examination, a standard component of dental diagnosis for caries detection, periodontal assessment, and endodontic evaluation. Digital reduces radiation dose and allows immediate image viewing.
Panoramic Dental X-Ray — OPG (orthopantomograph)	1	₱ 1,500,000	₱ 1,500,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for full-arch radiographic assessment covering all teeth, TMJ, sinuses, and alveolar bone in a single exposure. OPG is essential for comprehensive treatment planning, oral surgery evaluation, and detection of impacted teeth.
Autoclave / Sterilizer (class B, tabletop)	1	₱ 80,000	₱ 80,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for sterilization of all reusable dental instruments. Class B autoclave meets DOH and WHO infection control standards for dental clinics, including hollow and wrapped instrument loads. Non-negotiable for patient safety.
SECTION SUBTOTAL			₱ 2,530,000		

IV. LABORATORY / DIAGNOSTICS AREA					
Hematology Analyzer (5-part differential, auto-loader)	1	₱ 500,000	₱ 500,000	Bidding: Q1 2027 Delivery: Q2 2027	Essential for complete blood count (CBC) and 5-part differential — the most frequently requested laboratory test. Auto-loader increases throughput and reduces manual handling. Required for pre-employment and annual physical exam processing.
Clinical Chemistry Analyzer (random access, multi-channel)	1	₱ 600,000	₱ 600,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for biochemical testing including blood glucose, lipid profile, liver enzymes, kidney function, and cardiac markers. Automated random-access analyzers handle multiple tests simultaneously, reducing turnaround time for clinical decisions.
Urinalysis Analyzer (reflectance photometry with sediment module)	1	₱ 150,000	₱ 150,000	Bidding: Q1 2027 Delivery: Q2 2027	Automates urine dipstick and microscopic sediment analysis — a standard test in all annual physical examinations. Sediment module reduces the need for manual microscopy of routine urine specimens.
Blood Gas Analyzer (point-of-care, with electrolytes)	1	₱ 1,500,000	₱ 1,500,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for rapid assessment of oxygenation, ventilation, and acid-base status in emergency and critical cases. Combined with electrolyte measurement, provides comprehensive metabolic and respiratory status in minutes at the point of care.
Coagulation Analyzer (4-channel)	1	₱ 800,000	₱ 800,000	Bidding: Q1 2027 Delivery: Q2 2027	Needed for PT/INR and APTT testing required in anticoagulation management, pre-surgical evaluation, and monitoring of bleeding disorders. Automated coagulation testing reduces manual pipetting errors.
Electrolyte Analyzer (sodium, potassium, chloride, ionized calcium)	1	₱ 500,000	₱ 500,000	Bidding: Q2 2027 Delivery: Q3 2027	Provides rapid measurement of serum electrolytes — critical for clinical management of dehydration, cardiac, and renal conditions. Separate from the blood gas analyzer to allow parallel testing and higher throughput.
Centrifuge (tabletop, variable speed)	2	₱ 60,000	₱ 120,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for serum/plasma preparation prior to chemistry and serology testing. Two units handle simultaneous specimen batches and prevent workflow delays during peak specimen receipt periods.
Refrigerated Centrifuge (temperature-controlled)	1	₱ 200,000	₱ 200,000	Bidding: Q1 2027 Delivery: Q2 2027	Needed for temperature-sensitive specimen processing including cold centrifugation of plasma for coagulation studies and hormonal assays. Maintains sample integrity that room-temperature centrifugation cannot ensure.
Microscope (binocular, laboratory grade, with camera port)	2	₱ 50,000	₱ 100,000	Bidding: Q2 2027 Delivery: Q3 2027	Necessary for microscopic examination of blood smears, urine sediment, and clinical specimens. Camera port enables digital image capture for documentation, quality control, and teleconsultation.
Biosafety Cabinet (Class II Type A2, with UV and exhaust)	1	₱ 200,000	₱ 200,000	Bidding: Q1 2027 Delivery: Q2 2027	Mandated by DOH and BHFS laboratory standards for handling infectious biological specimens. Protects laboratory personnel, specimens, and the environment from aerosol exposure during specimen processing.
Specimen Storage Refrigerator (laboratory grade)	1	₱ 60,000	₱ 60,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for short-term storage of biological specimens awaiting testing and preservation of reagents at prescribed temperatures, separate from pharmaceutical and general-use refrigerators per BHFS standards.
Point-of-Care Testing (POCT) Analyzer — multi-panel	2	₱ 200,000	₱ 400,000	Bidding: Q2 2027 Delivery: Q3 2027	Enables rapid bedside testing for cardiac markers, blood glucose, and infectious disease panels without specimen transport to the main laboratory. Reduces time-to-result for emergency and urgent clinical decisions.
SECTION SUBTOTAL			₱ 5,130,000		
V. PHARMACY / DISPENSARY AREA					
Pharmaceutical Refrigerator (2–8°C, alarmed)	1	₱ 60,000	₱ 60,000	Bidding: Q2 2027 Delivery: Q3 2027	Needed for proper cold storage of temperature-sensitive drugs, vaccines, and biologicals. Alarm function alerts pharmacists to temperature excursions, preserving drug efficacy and patient safety per FDA and DOH pharmacy regulations.
SECTION SUBTOTAL			₱ 60,000		

VI. PHYSICAL THERAPY / REHABILITATION AREA

Ultrasound Therapy Unit (1 & 3 MHz, continuous/pulsed)	2	₱ 150,000	₱ 300,000	Bidding: Q2 2027 Delivery: Q3 2027	Core physical therapy modality for the treatment of musculoskeletal injuries and chronic pain through deep tissue heating and mechanical effects. Dual-frequency units provide flexibility for treating both superficial and deep tissue structures.
TENS/EMS Combination Unit (multi-channel)	3	₱ 80,000	₱ 240,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for transcutaneous electrical nerve stimulation (pain management) and electrical muscle stimulation (muscle rehabilitation). Multi-channel units treat multiple areas simultaneously, improving patient throughput in the PT clinic.
Traction Table (cervical and lumbar, motorized)	2	₱ 200,000	₱ 400,000	Bidding: Q2 2027 Delivery: Q3 2027	Essential for mechanical traction therapy of cervical and lumbar spine conditions, including disc herniation and nerve compression syndromes. Motorized tables allow precise, programmable traction parameters for consistent treatment delivery.
Treatment Plinth / Therapy Table (motorized, height-adjustable)	4	₱ 80,000	₱ 320,000	Bidding: Q2 2027 Delivery: Q3 2027	Required as the primary treatment surface for hands-on physical therapy interventions including manual therapy, therapeutic exercise, and modality application. Height-adjustable type reduces occupational injury risk for therapists.
Parallel Bars (adjustable height and width, stainless)	1	₱ 200,000	₱ 200,000	Bidding: Q2 2027 Delivery: Q3 2027	Standard rehabilitation equipment for gait training and lower extremity strengthening post-injury or post-surgical recovery. Provides support and safety for patients relearning ambulation with assisted weight-bearing.
Hydrotherapy / Whirlpool Bath (extremity type)	1	₱ 600,000	₱ 600,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for hydrotherapy treatment of wounds, burns, orthopedic injuries, and chronic pain conditions using the combined effects of warm water and turbulent flow. Standard equipment in rehabilitation departments per DOH Clinical Practice Guidelines.
Interferential Therapy (IFT) Unit (4-pole)	2	₱ 150,000	₱ 300,000	Bidding: Q2 2027 Delivery: Q3 2027	Provides mid-frequency electrical stimulation for deeper pain relief compared to standard TENS. 4-pole configuration allows treatment of larger and deeper tissue volumes, suitable for back, hip, and shoulder conditions.
Short Wave Diathermy Unit (continuous and pulsed, 27.12 MHz)	1	₱ 200,000	₱ 200,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for deep tissue heating of large muscle groups and joints in the treatment of subacute and chronic musculoskeletal conditions. Pulsed mode extends application to cases where heating is contraindicated.
Laser Therapy Unit (low-level laser, Class 3B/4)	1	₱ 300,000	₱ 300,000	Bidding: Q2 2027 Delivery: Q3 2027	Used for photobiomodulation therapy in wound healing, pain management, and tissue repair. Provides a non-thermal, non-invasive treatment option for conditions not suitable for conventional thermal modalities.
SECTION SUBTOTAL			₱ 2,860,000		

VII. WELLNESS / FITNESS AREA

Treadmill (commercial grade, motorized, up to 20 km/h)	4	₱ 120,000	₱ 480,000	Bidding: Q2 2027 Delivery: Q3 2027	Core cardiovascular fitness equipment supporting agency wellness programs. Commercial-grade specification ensures durability under daily multi-user conditions. Four units prevent queuing during peak usage periods as recommended by fitness facility standards.
Stationary Bicycle (upright/recumbent, commercial grade)	4	₱ 50,000	₱ 200,000	Bidding: Q2 2027 Delivery: Q3 2027	Provides low-impact cardiovascular exercise accessible to employees with joint conditions or recovering from injury. Recumbent configuration ensures inclusive access for varying physical conditions and fitness levels.
Elliptical Trainer (commercial grade, stride-adjustable)	2	₱ 80,000	₱ 160,000	Bidding: Q2 2027 Delivery: Q3 2027	Offers a full-body, low-impact aerobic workout option that reduces joint stress compared to running. Complements treadmills and bicycles to diversify cardiovascular exercise choices, supporting higher program participation rates.

Multi-Station Gym Equipment (functional trainer, cable-based)	1	₱ 300,000	₱ 300,000	Bidding: Q1 2027 Delivery: Q3 2027	Provides multiple resistance and strength training stations in a single integrated unit, maximizing floor space efficiency. Cable-based functional trainer enables a wider range of exercises compared to fixed-axis machines, supporting comprehensive strength conditioning programs.
Free Weight Rack with Complete Dumbbell Set (2.5–50 kg pairs)	2	₱ 80,000	₱ 160,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for free-weight strength and resistance training accommodating varied fitness levels. Two complete rack-and-dumbbell sets enable simultaneous use during peak gym hours without equipment bottlenecks.
Body Composition Analyzer (bioelectrical impedance, 8-electrode)	1	₱ 100,000	₱ 100,000	Bidding: Q2 2027 Delivery: Q3 2027	Needed for periodic assessment of body fat percentage, muscle mass, visceral fat, and BMI as part of the wellness monitoring program. Provides objective data guiding personalized wellness interventions and tracking program outcomes over time.
Cardiac Stress Testing System (treadmill ECG with software)	1	₱ 800,000	₱ 800,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for exercise ECG testing to assess cardiovascular fitness, detect exercise-induced arrhythmias, and evaluate chest pain under controlled conditions. Standard component of a comprehensive medical and wellness facility per DOH and cardiological standards.
Spirometer / Pulmonary Function Testing System (diagnostic)	2	₱ 200,000	₱ 400,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for lung function assessment as part of annual physical examinations and occupational health evaluation, particularly for employees exposed to respiratory hazards. Provides FVC, FEV1, and flow-volume loop data for respiratory health monitoring.
SECTION SUBTOTAL			₱ 2,600,000		
VIII. ADMINISTRATIVE / RECEPTION AREA					
Reception Desk (L-type, modular, with privacy panel)	2	₱ 50,000	₱ 100,000	Bidding: Q2 2027 Delivery: Q3 2027	Serves as the primary patient intake and records management station at building entry points. L-type modular design provides sufficient workspace for reception staff and creates a professional, organized front-of-house environment.
Multifunction Printer (A3, laser, print/scan/copy/fax)	2	₱ 60,000	₱ 120,000	Bidding: Q1 2027 Delivery: Q2 2027	Needed for printing medical certificates, laboratory results, prescriptions, and official correspondence. A3 laser multifunction units support a paperless-ready workflow and accommodate larger clinical document formats with high-volume printing capacity.
CCTV System (8-camera set, IP, with NVR and 4TB storage)	2	₱ 80,000	₱ 160,000	Bidding: Q2 2027 Delivery: Q3 2027	Essential for building security, patient safety monitoring, and asset protection. Full IP camera coverage of common areas, corridors, and entry/exit points is required under building safety standards for medical facilities.
Air Conditioning Unit (2HP, inverter type, wall-mounted)	6	₱ 50,000	₱ 300,000	Bidding: Q1 2027 Delivery: Q2 2027	Necessary to maintain controlled indoor temperatures for patient comfort, equipment performance, and specimen integrity in administrative and reception areas. Inverter type provides energy efficiency consistent with DPWH/DENR green building guidelines.
SECTION SUBTOTAL			₱ 680,000		
IX. BUILDING SUPPORT SYSTEMS					
Standby Generator Set (100KVA, diesel, automatic transfer switch)	1	₱ 2,500,000	₱ 2,500,000	Bidding: Q1 2027 Delivery: Q2 2027	Critical for uninterrupted operation of life-safety equipment, refrigeration units, laboratory analyzers, and imaging systems during power outages. The automatic transfer switch ensures zero-gap switchover, protecting sensitive medical equipment and preserving specimen and pharmaceutical integrity.
Piped Medical Gas System (O2 and N2O central supply, with outlets)	1	₱ 2,000,000	₱ 2,000,000	Bidding: Q1 2027 Delivery: Q2 2027	Required to supply oxygen and nitrous oxide to clinical treatment rooms and the dental area via a centralized piped distribution system. Eliminates the need for individual compressed gas cylinders at each point of use, reducing handling hazards and ensuring continuous supply.

Water Purification System (reverse osmosis, 500 L/hr)	1	₱ 500,000	₱ 500,000	Bidding: Q2 2027 Delivery: Q3 2027	Provides purified water required for laboratory reagent preparation, sterilization processes, hydrotherapy, and clinical procedures. RO-grade water ensures removal of contaminants that could compromise test accuracy or patient safety.
Central Sterilization Autoclave (large capacity, pre/post-vacuum)	1	₱ 1,500,000	₱ 1,500,000	Bidding: Q1 2027 Delivery: Q2 2027	Required for centralized sterilization of all reusable clinical instruments across the facility. A large-capacity pre/post-vacuum autoclave handles wrapped, hollow, and porous loads, meeting WHO and DOH standards for healthcare facility infection control.
Electronic Health Records (EHR) Server and Backup System	1	₱ 1,000,000	₱ 1,000,000	Bidding: Q1 2027 Delivery: Q2 2027	Required as the central data repository for the facility's electronic health records system. A dedicated server with redundant backup ensures data security, availability, and compliance with the Data Privacy Act of 2012 (R.A. 10173) and DOH Health Information System standards.
Nurse / Patient Call System (with master station and room units)	1	₱ 800,000	₱ 800,000	Bidding: Q2 2027 Delivery: Q3 2027	Required for immediate communication between patients and nursing staff in observation and treatment rooms. Reduces response time to patient requests, improving care quality and patient safety in a facility managing multiple rooms simultaneously.
Structured Network Cabling Infrastructure (Cat6A, with switches and WAPs)	1	₱ 600,000	₱ 600,000	Bidding: Q1 2027 Delivery: Q2 2027	Provides the physical network backbone supporting EHR workstations, medical devices, imaging systems, and WiFi access points throughout the building. Cat6A cabling supports high-speed data transfer required for medical imaging and real-time diagnostic data.
AV / Telehealth System — Health Education Room (display, camera, conferencing unit)	1	₱ 500,000	₱ 500,000	Bidding: Q2 2027 Delivery: Q3 2027	Enables teleconsultation with specialists and remote health education delivery. Supports the facility's preventive health programs through group health education sessions and allows real-time video consultation with external specialists, extending the facility's service reach without physical referral.
Telemedicine Workstation Set (monitor, camera, digital stethoscope, BP cuff — integrated)	2	₱ 420,000	₱ 840,000	Bidding: Q2 2027 Delivery: Q3 2027	Provides a fully integrated telemedicine consultation station enabling remote examination with digital peripheral devices. Allows physicians to conduct virtual consultations with off-site specialists or remote patients, extending clinical reach and reducing unnecessary referrals to tertiary facilities.
SECTION SUBTOTAL			₱ 10,240,000		
GRAND TOTAL			₱ 50,000,000
